

1. How to make scenario for filming?

What is scenario?

a written outline of a film, novel, or stage work giving details of the plot and individual scenes

Scenario for documentary film	Scenario for the feature film
Building the story through interviews, surveys, field research - impossible to follow the original scenario.	Recording as planned suggestions.

Before we start...

1. Idea

Brainstorming, opinions, analysis

2. Synopsis

Realizes the idea. You write down the basic idea, the beginning, highlights and end of story.

3. Scenario*

4: A recording book

Work plan for recording. It is not mandatory, but with it is easier to check whether you have recorded all the material on the ground. (every single scene and location, costumes, room equipment, etc.)

Preparation:

- Professional Standard Catalog: <http://www.nrpslo.org/>
- Base knowledge: <http://www.cpi.si/srednje-strokovno-izobrazevanje.aspx>
- Analysis of what employers need (interviews or a survey with mentors in companies, expert council, etc.)
- Other teachers opinion (you can create teachers working group)

Preparation:

- The key situation or work task you will record
- Selection of "players", locations for recording
- Accessories and tools
- Video length and individual scenes
- Graphics

Now you are ready for writing scenario!

Scenario:

The format is not prescribed.

- Text (audio, subtitles)
- Image (predict what we need to record to "cover" audio)
- Time (length per scene - details)
- Graphics: logo, key words,...
